

# Alexander Smirnov

Co-Founder & CTO

Alexander Smirnov is a full-stack Web Application Developer and Software Developer. He has a Master of Science in Computer Science and his primary focus and inspiration for his studies is Web Development. He develops in both C# and PHP, though he primarily uses C#. He is experienced in both front and back-end development, and he is proficient in HTML/HTML5, CSS/CSS3, LESS, SASS, XML, JavaScript, jQuery, AJAX, and SQL/MySQL/PostgreSQL, to name a few. He is also proficient in many non-web-based languages, including but not limited to Java, Scheme/Racket, C, ACL2 (LISP), and MIPS Assembly.
